DOUBLE BACK

Teken één enkele ononderbroken rondweg door alle vakjes van het diagram door de middelpunten van naast elkaar gelegen vakjes te verbinden. De rondweg kruist of overlapt zichzelf niet. De rondweg loopt precies twee keer door elk vetomrand gebied.

DOUBLE BACK

Draw a single closed loop through all cells of the grid that connects the centers of adjacent cells and doesn't cross or overlap itself. The loop travels through each bold outlined region exactly twice.
