

SUDOKU – EVEN SANDWICH

Plaats de cijfers 1-9 precies één keer in elke rij, kolom en 3x3-blok. Aanwijzingen buiten het diagram geven alle cijfers aan die in de betreffende rij of kolom aan beide kanten even buurcijfers hebben. Een streepje betekent dat geen enkel cijfer aan deze voorwaarde voldoet. De aanwijzingen staan in oplopende volgorde en niet per se in de volgorde van het diagram.

SUDOKU – EVEN SANDWICH

Place the digits 1-9 exactly once in each row, column and 3x3 block. Clues outside the grid indicate all the digits that have even digits neighbouring them on both sides in the corresponding row or column. A dash implicates that no digits meet this requirement. Clues are given in ascending order and not necessarily in the order in which they appear in the grid.
